Scan Master 3

Color Scanning
Books & Documents
True 600 dpi
A3

A3 Scan & Copy System

The New Portable Low Cost Book Scanner

The Scan Master 3 was designed to scan books in high quality at a reasonable price. It is a light desktop unit that can be moved around easily. With a scan speed of less than 3 seconds (A3, 300 dpi, color) it offers high productivity combined with high quality output.

New Book Cradle Concept

The Scan Master 3 is equipped with our new pull-out book cradle as a standard feature. The operator simply pulls out the book cradle, places the book on the cradle, pushes the book cradle back in and either operates the hand or foot switch. The book cradle moves up against the glass plate. Special pressure sensors prevent the book from being harmed. Immediately after the scan is finished, the book cradle lowers itself automatically. The operator turns the page and releases the next scan. For books that cannot be opened entirely a 120 degree book cradle is optionally available. With this concept the Scan Master 3 is a versatile and cost-effective way of scanning all different kinds of books.

Standard Technology for your Convenience

Standard application software is provided along with the Scan Master 3. However, due to the included TWAIN driver it is possible to utilize any other TWAIN compatible application software as well.

User Friendly for the Operator

Like all SMA book scanners can the Scan Master 3 be operated independent from ambient light. No matter if you position the scanner next to a window or in a shady corner - your scanned images will always be the same quality. In addition, the operator does not get irritated by illumination elements which are usually necessary with other book scanners.

Mobile Use

Due to its low weight, small dimensions and rugged design the SCAN MASTER 3 is well suitable for mobile usage. It allows the user to transport the scanner to and from work stations with ease.

Workflow

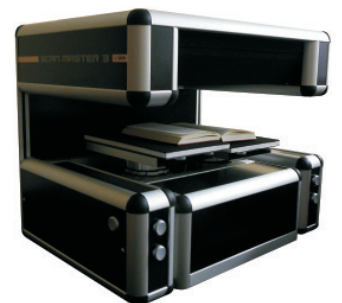

1 Starting Position

2 Pull out the Book Cradle

3 Position the Book

4 Push the Book Cradle back

5 Release the Scan

Technical Specification

Optical Resolution

600 dpi

Scan Speed

2.5 seconds (A3, color, 300 dpi)

4.5 seconds (A3, color, 600 dpi)

Scanning Range

300 x 432 mm (11.8 x 17 inch)

Illumination

LED

Scan Modes

Bitonal, Greyscale and Color
